# 1. Introduction

Our company proposes **high-quality products** from the Italian gastronomy. We can provide your business with a wide range of specialities from the **whole country**. Are you a restaurant, hotel, shop or a chain of food stores? Then, we are the ideal partner for all what concerns **Italian delicacies**.

## The company

Since 2004 **GO-MM Sprl** is specialised in the **import** of high-quality products **from Italy to Belgium**. We want to spread an image of Italy that steps away from the classic Italian clichés by supporting **small manufacturers**. This passion for Italy, then, pushes us to go further and think about **exporting** our products out of Europe.

Our experience in Belgium led us to open a shop *Belli e Buoni*, which has also become a well-known restaurant in the centre of Brussels. This activity gave us the opportunity to **explore the customers attitude and trends** towards the different products offered. We invite you to **visit its website** [www.belliebuoni.be](http://www.belliebuoni.be) and get an idea of what we mean.

Three **key words** can summarize our activity:

- High-quality
- Accurate selection
- Small manufacturers

This catalogue will show a selection of products we believe are interesting to be exported. It is structured in **four main categories**: grocery, oil and vinegar, drinks and social engagement products. Each of them is subsequently divided in a more specific way, which also includes the **origin** of the products.

Have a look at our offer, and do not hesitate to take advantage of our **network** and **experience**, if you are interested in any other Italian product!

## 2. Grocery

This category includes pastas, biscuits, salty biscuits, cakes, BIO products, tomato sauces and appetizers.
